# MIWELL LINE

# Product descriptions

It is a medical product containing hyaluronic acid.

It improves skin elasticity and moisture.

It's not only make your skin in the best condition, but also make you get great satisfaction from the effect.

It also helps restore wrinkles, scars, and tissue cells on the face.

If you want to be more beautiful and contour lines on your face and, body without side effects, should not be hesitate to choose "Miwell".

It is suitable for face and small area like waist, limbs and abdomen.

It is injected into lower layer of fat to dissolve and decompose stubborn fat into

fatty acids to supply energy instead of storing fats.

Body's metabolism is promoted to dissolve and reduce fats while tighten and lift the skin to improve skin elasticity after Miwell is injected.

Hyaluronic acid

Improved elasticity

Skin regeneration effect

# Why?

## Hyaluronic acid

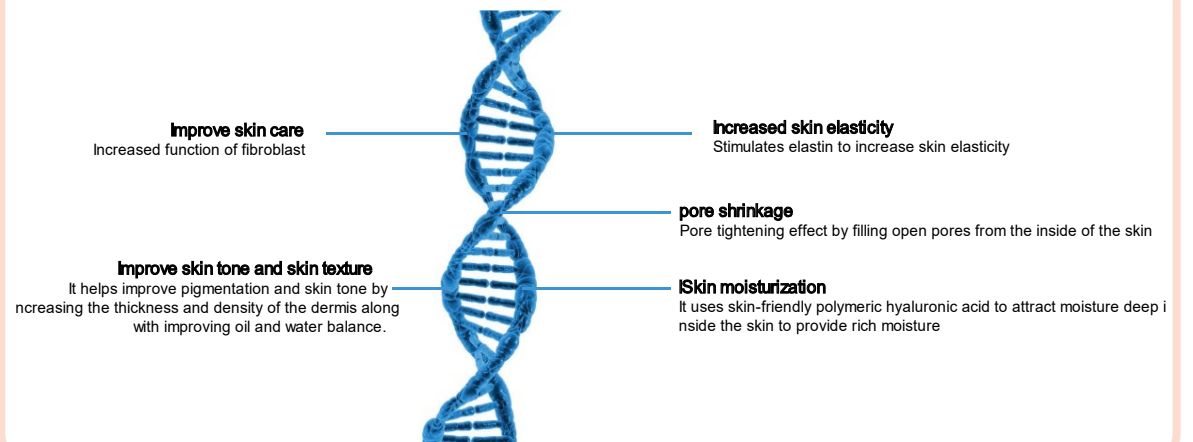

Hyaluronic acid is a substance that can contain 300 to 1,000 times moisture compared with its weight.

So, it is excellent for moisturizing skin, and very effective to regenerate the skin sufficiently.

It replaces the natural ingredients of the skin that were lost in the aging process.

Furthermore, it helps moisturize the skin, improves fine wrinkles on the face, and helps repair tissue decay and birth defects caused by burns, trauma, and cell damage.

It has the effect of healing wounds and protecting external exposure.

# “Turn painlessly beautiful”

## Hydrating serum

It accelerates fat metabolism,  
It helps to strengthen the  
skin by absorbing fat  
smoothly.

## Firming serum

It is currently  
on a non-surgical fat burning diet.  
It is the most effective method.  
You look especially good  
with a thin face.

<b>Injection part</b>	wrinkles, chin, cheek fat.	around the eyes
<b>Product specification</b>	3ml of pain-free prescription	3ml of fat solution
<b>How to use</b>	Mix 2 bottles and use 3ml+3ml	
<b>A production sites</b>	Korea	

# “MIWELL”

Increased metabolism accelerates fat decomposition.

Achieve a lean body line.

Improve skin elasticity and resist aging.

Improve facial lines to be sharp and delicate.

It is most effective and safest way to lose weight properly.  
 It is suitable for facial area and small area like, waist, limbs, abdominal..etc.  
 It accelerates body metabolism after injection, so it helps to decompose and absorb fat while tighten and lift the skin for the skin elasticity at the same time.  
 No need to worry about swelling, pain, redness.  
 It is also possible to have the desired effect on any body part even without any limitation.

Obesity injection	VS	Mewell fat division injection
Fat cell destruction	principle	fat breakdown
Weak lymphatic circulation promotion	Lymphatic circulation	Lymphatic circulation promotion
Only fat softens	Effect	Softens fat to make it elastic
Effective from 3 to 5 times	Round	Effective at once

## Obesity injection VS Miwell

<b>Obesity injection</b>	<b>VS</b>	<b>Miwell fat division injection</b>
Fat cell destruction	Principle	Fat breakdown
Weak lymphatic circulation promotion	Lymphatic circulation	Lymphatic circulation promotion
Only fat softens	Characteristic	Softens fat to make it elastic
Effective from 3 to 5 times	Effect occurs	Effective at once

**Miwell** creates a line with the effect of breaking down fat.  
This is a new concept lipolysis injection that makes fat soft and elastic.

An initial course of 3 treatments, 3 weeks apart is recommended for optimal results.  
After the intensive course of treatment, you can repeat the treatment every 4-6 months.  
The best effect can be obtained with more than 3 treatments and maintenance period is 6 months to 1 year

## Cheek bone

---

dosage : 0.3cc (per injection)  
depth : 2~3mm  
interval : 1cm

## V line

---

dosage : 0.3cc (per injection)  
depth : 2mm  
interval : 1cm

## Jaw line

---

dosage : 0.5cc (per injection)  
depth : 4mm

## Double chin

---

dosage : 0.3cc (per injection)  
depth : 4mm  
interval : 1cm

## Eyelids

---

dosage : 0.2cc (per injection)

## Nose

---

dosage : 0.2cc (per injection)

## Smile lines

---

dosage : 0.5cc (per injection)  
depth : 4mm  
interval : 1cm

## Side cheekbones

---

dosage : 0.3cc (per injection)  
depth : 2~3mm  
interval : 1cm

## Eye bag

---

dosage : 0.2cc (per injection)

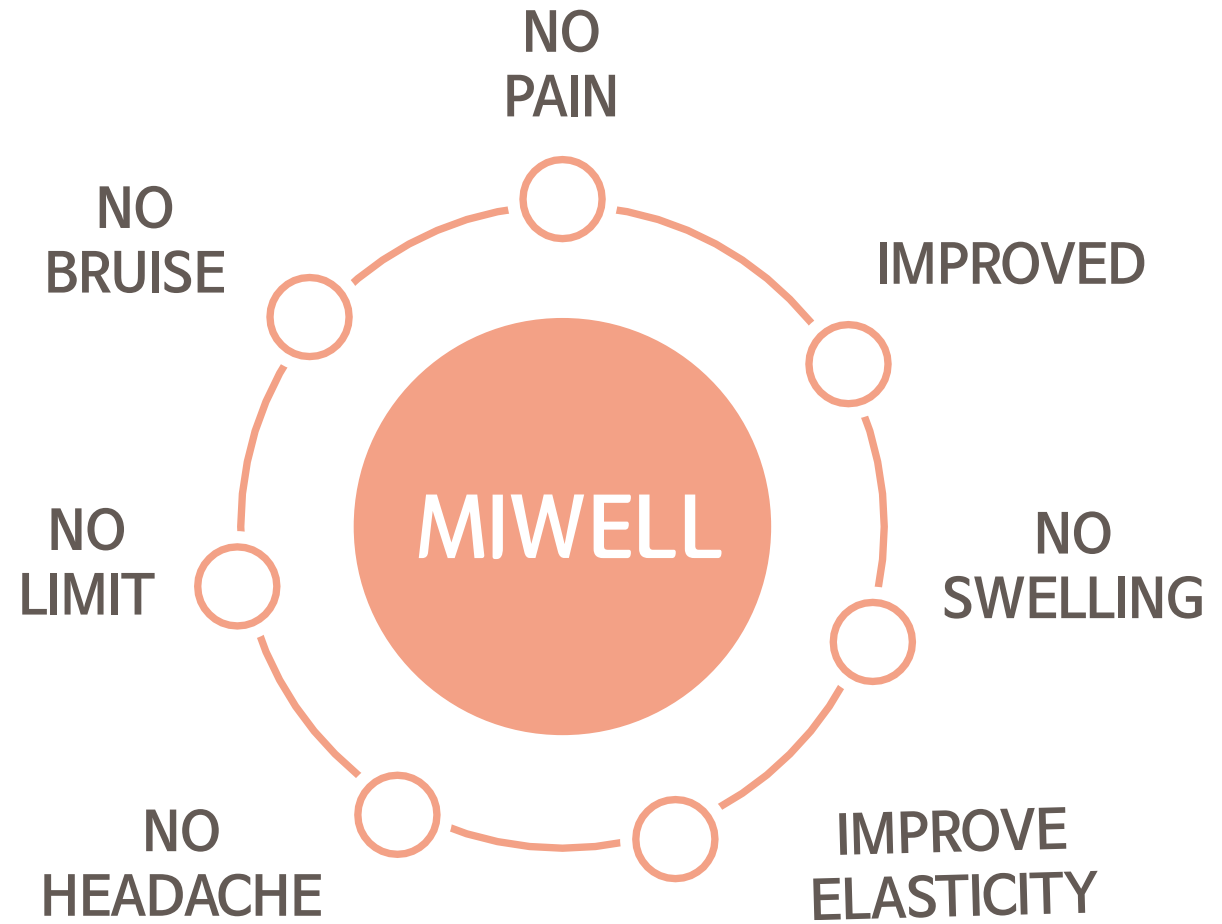

## How to use

Mixing 2 bottles and using 3ml+3ml

Expiration date : 2years (from  
manufactured date)

Precaution : Heart disease, kidney  
failure, and cancer patients are  
prohibited from using it.

Inject into the facial fat layer to promote fat decomposition.

4MAIN  
Material

Aesculus hippocastanum extract

Aescin, can improve microcirculation of skin and fatty tissue.  
Improve blood circulation in capillaries.  
Reduce edema and blood stasis similar to Herbalist.  
L'Oreal and famous ingredients

Ophiopogon japonicus root extract

Increase skin moisture.  
Reduce skin dryness and regenerate skin cell.  
Able to reduce wrinkles and provide anti-aging effect

joulans regia seed extract

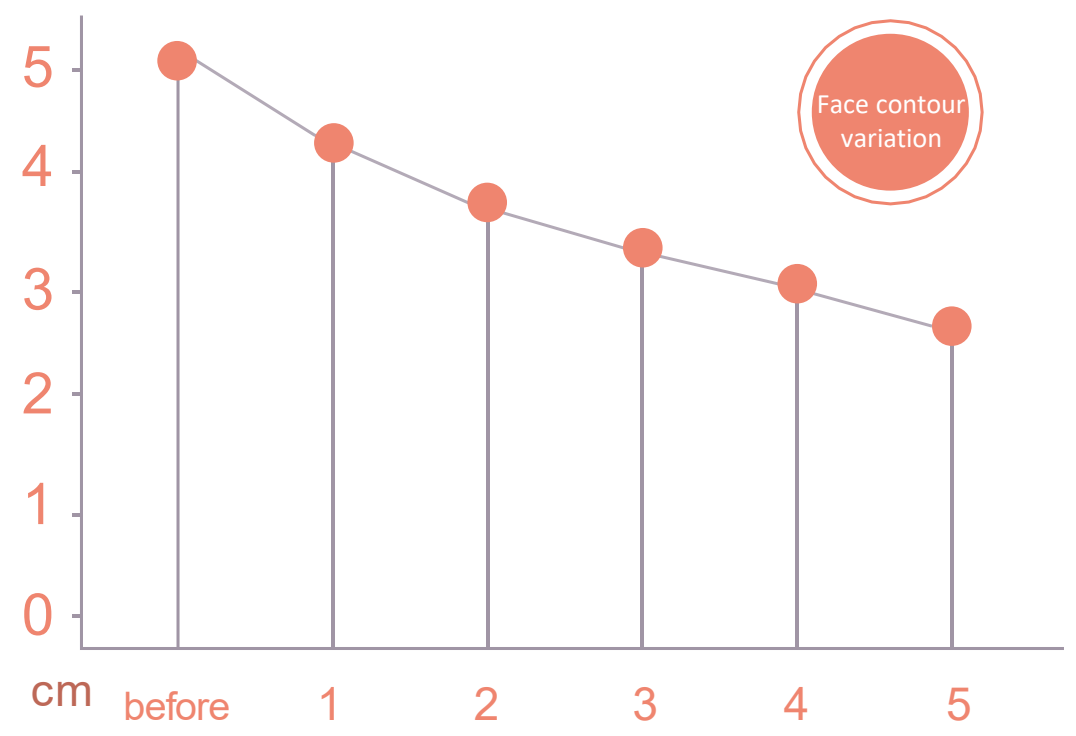

Origin from French Alps which is rich in phytic acid, polyphenols and nutrients against oxidative stress.  
Promote cell metabolism, promote skin protein synthesis

Fucus vesiculosus extract

Promotes and balances metabolism.  
Reduces obesity.  
Replenishes minerals and absorbs arsenic.  
Forms arsenic-containing metallothionein in cells to enhance immunity
